- Evaluate the risks to the quality and effectiveness of the financial reporting process, especially in light of the auditor's communications with the Committee.

Terms and remuneration

Annual audit cycle

- Ensure that appropriate plans are in place for the audit at the start of each audit cycle. The Committee should consider whether the auditor's overall work plan, including planned levels of materiality and proposed resources to execute the audit plan, appears consistent with the scope of the audit engagement, having regard also to the seniority, expertise and experience of the audit team.

In the course of the review, the Committee should:

 - d) review and monitor the content of the external auditor's management letter, and other communications with the Committee, to assess whether it is based on a good understanding of the Group's business and establish whether recommendations have been acted upon and, if not, the reasons why they have not been acted upon; and
 - e) review the significance of any findings arising from a review of the Group's audit by the FRC Audit Quality Review team.
